

# Key Instant Recall Facts

This half term your children are working towards achieving their individual KIRF targets, indicated below. The ultimate aim is for your child to be able to recall these facts *instantly*!

Know all number bonds for £1 using decimal notation.

**Decimal Notation**  
**(using the tenths and hundredths columns):**

$$5\text{p} = \text{£}0.05$$

$$28\text{p} = \text{£}0.28$$

$$94\text{p} = \text{£}0.94$$

***This uses your knowledge of number bonds for 100. Yay! Money really helps us with decimals so use 'real life' shop situations...***

"What is the bond for £1 if I have 48p?"

"That's 52p!"

"And as a decimal?"

"That's 0.52!"

"How much change will I get from £1 if I spend 35p on sweets?"

"65p...or 0.65 as a decimal!"

Building confidence in mathematics is crucial so be pleased with their efforts and always encourage with praise. Make sure these practice sessions are enjoyable - if your child is really not in the mood it is the wrong time to be practising!
