

# Key Instant Recall Facts

YR – Spring 1st

This half term your children are working towards achieving their individual KIRF targets, indicated below.  
The ultimate aim is for your child to be able to recall these facts **instantly**!

**Be able to partition numbers to 5  
into two groups.**

**Helpful hints for parents:**

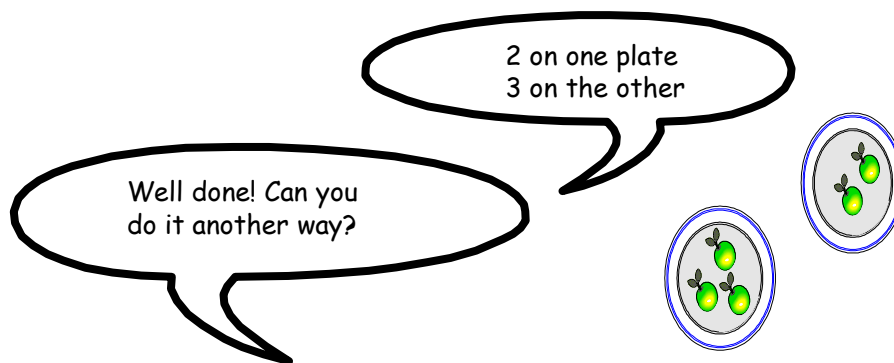

- Encourage your child to check using their fingers: If 3 fingers are down, how many are up?
- Use a range of practical resources to physically group objects into 2 groups, helping visualisation.

## Key vocabulary

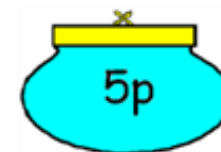

Partition, split up, share between, groups

Introducing money: how many different ways can you share 5p between two people?

If I have 5 apples and two plates how many apples can I put on each plate?

0p + 5p  
1p + 4p etc

## Fun and games

Using teddies and toys: I have 5 teddies and two houses, how many teddies can fit in each house?

Building confidence in mathematics is crucial so be pleased with their efforts and always encourage with praise. Make sure these practice sessions are enjoyable - if your child is really not in the mood it is the wrong time to be practising!
